

BPO Audio Patch Panels

2 Row 1U

Jacks All panels are fitted with high quality Gauge B 5-point palladium-contact break-jacks, with nickel-silver contact springs, and nickel-plated bush. Panels use jacks with offset earth-lugs for ease of bussing.

Analogue/Digital This proven analogue system has the capacity to patch AES/EBU standard digital audio signals when digital patchcords are specified. 110 Ohm low capacitance screened cable should be used for wiring.

Panels 1U BPO Audio Patch Panels are available from 1 to 26-way, 2-row in pair pitch. Panels come complete with tie bar and designation strips. Custom colours and markings are available on request.

Patchcords Digital and Analogue Patchcords are available in various colours/lengths.
