## **BPO Audio Patch Panels**

### **4 Row 3U**

**Jacks** All panels are fitted with high quality Gauge B 5-point palladium-contact break-jacks, with nickel-silver contact springs, and nickel-plated bush. Panels use jacks with offset earth-lugs for ease of bussing.

**Analogue/Digital** This proven analogue system has the capacity to patch AES/EBU standard digital audio signals when digital patchcords are specified. 110 Ohm low capacitance screened cable should be used for wiring.

**Panels** 3U BPO Audio Patch Panels are available from 1 to 26-WAY, 4-ROW in equal or paired pitch. Panels come complete with tie bar and designation strips. Custom colours and markings are available on request.

**Patchcords** Digital and Analogue Patchcords are available in various colours/lengths.
