

Video Panel Accessories

SuperMUSA U-links The U-links have a rigid construction with internal impedance matching unachievable with floating types. Media's unique panel with Fully Floating Connector System ensures perfect connector alignment.

SuperMUSA Patchcords SuperMUSA Patchcords combine latest technology connectors with a custom- designed digital/ analogue cable to match system cabling.

All video patchcords are completed with sturdy black strain relief boots as standard for superior performance and long life. Suitable for HDTV, SDV, Composite and Component applications.

All patchcords conform to the protection requirements of EU Council Directive 89/336/EEC (inclusive 93/68/EEC) for EMC/RFI emission and immunity.

See overleaf for Ordering Information.
